Shooting & Scoring Rules

Raw score is used in determining placements in each competitive event (highest score wins).

Overall awards are determined by placement points (points assigned for each "place") in all 3 events, not by a compilation of total raw scores.

Purpose of placement points: To equalize the value of each event; i.e. so that the 3D event has the same value as the FITA event; AND to equalize the value of each discipline when determining the overall award. To accomplish this, each event must have the same point value for 1st place, 2nd, etc.

Each individual and each team will be assigned a placement point value after event scores are recorded, tie breaks are made, and final ranking for the event is determined. Placement points from each event are totaled for each team and individual to determine the overall awards/ranking.

General Scoring/Rules

1. Shooters will be grouped by division and pored up with members of competing club when possible
2. No two shooters from the same club will shoot together in a single group or target bank if possible
3. If it is not possible to "break up" members from one club, a target captain will be assigned from opposing club.
4. Target Captains will not work with a bank or group which contains their own child
5. Shooters must resolve score dispute before pulling arrows
6. If dispute cannot be resolved between shooter and Target Captain, Range Master will have final say
7. Totals and running totals will not be tallied (added) during tournament
8. Totals will be added and validated by scoring officials at end of tournament

16. The range commander will make the official ruling on when an archer may shoot another arrow in place of a dropped arrow

2010 WSAC General Rules

17. If an archer shoots more than 3 arrows in an end only the 3 arrows of lowest value will be scored, unless the extra arrows were awarded as a result of a witnessed bounce-out or arrows shot completely through the target
18. An additional penalty of one point will be assessed for each arrow shot over the prescribed number (except re-shot arrows awarded by the range commander)
19. If an archer shoots fewer than 3 arrows in one end, he/she may shoot the remaining arrows only if the Range Master has granted a Bolo Round due to equipment malfunction.

Clothing with sexually suggestive wording or graphics; and alcohol or tobacco advertisement is not appropriate. Range officials have the final word concerning the dress code and may announce or address specific cases. All participants and coaches should remember that they may be having photographs taken or be asked to interview for the media. Remember that you represent all of 4-H Shooting Sports. Make it a positive image!

2010 WSAC General Rules

Knowledge of Rules and Procedures

Where possible, each of the events have been associated with a National Governing Body (NGB). An exception to any NGB rule is noted in the "Synopsis". It is the responsibility of each participant and coach to read the NGB rulebook, understand the procedures used in each event, and comply with the rules and standards of the events. Questions are encouraged to clarify any areas of misunderstanding or lack of knowledge.

Ignorance of the rules in any event does not obviate their existence. Participants are responsible for knowing the rules of their event and staying within them. Learning the rules of the events is part of the educational process for shooting sports participants.

Challenges and Protests

Challenges - Only participants may review their own targets and challenge the scoring. Once targets have been scored, they will be available for review by participants for a period of 30 minutes unless otherwise posted. Upon completion of that time period the scores may no longer be challenged. Challenges must be accompanied by a fee of \$1 per hole being challenged. A jury (not including the original scorer) will review the challenge and pronounce their findings to the challenger. If the challenge is upheld, the \$1 will be returned to the participant. If the challenge is rejected, the fee will be deposited in the Host Match funds. No fee is required to point out mathematical errors. The host range may announce its own procedures and time allowances for challenge.

Protests - Youth participants only (no adults), may protest; a) an injustice they feel has been done them individually; b) the conditions under which another competitor was permitted to fire; or c) the equipment another competitor was permitted to use.

Steps to Filing an Official Protest:

- a. Range Officer – The protest is made orally to the chief range officer or other State 4-H Shooting Sports Championship official present on the range.
- b. Range Jury – The protest may be stated orally to the jury of 3 or more officials present at the match, indicating the decision of the range officer. The jury should include a state discipline representative as well as local match officials.
- c. Match Director or /Jury – The protest must be submitted in writing to the Match Director or the Chief Range Officer, accompanied by a \$25 cash protest fee, within one (1) hour of the conclusion of the event. If the Protest is given to the Chief Range Officer, they will notify the Match Director immediately via radio or phone. The match jury will consider the statement, may ask questions of the participant and range officials and will render a decision in an expeditious manner. The decision of the match jury will be final and no further appeal is possible. Coaches, parents, and other parties may not participate in the process. If the protest is ruled valid, the fee will be returned.
